STORYBOARD

Static Display/Floor Plan Layout

When to Use: Concept Map, Diagram, Diorama, Display board, Display Table, Drawing, Map, Menu, Mobile, Model, Newspaper Page, Poster, Museum Exhibit, etc.

1. This design you create will be your guide when creating your actual display.
2. Your task is to develop a layout or design to help you organize your display and thoughts into an appealing and organized design.
3. In the space below, use boxes, sketches, simple words, and anything else you need to develop an outline of your concept.
4. If you are creating more than one static display, use a separate storyboard form for each.
5. When designing your actual display, use this as a guide.
