PRE-SEARCH Activity 1

Free Inquiry Project:

- You are about to begin a research project. You may research anything – a person, place, or thing that interests you (and is researchable).
- In the columns below, brainstorm everything you can think of to fit the description.
- This is about you, so the lists should match what you are thinking, dreaming, doing, wishing, studying, living, or wish you were living.
- The possibilities for your topic are limited only by your imagination!

<i>The types of books, internet websites, TV, games, movies, DVD's and music I like the most.</i>	<i>The activities, crafts, hobbies, and sports I like participating in, watching, or wished I was involved in.</i>	<i>My favorite animals, inventions, discoveries, famous people (living or dead), places in the world (or universe), careers, etc.</i>
