PRE-SEARCH Activity 2

Free Inquiry Project: Now it is time to put your list into categories. This means grouping your words by a common characteristic and giving that grouping a name, a theme. What are the four themes that interest you the most from Pre-Search 1? What category name would you give each of those themes? In the space below, name your categories, add the words from Pre-Search 1 that fit in each of those categories, and then add what you think you know about this topic.
